EDUCATION

Georgetown University Washington, D.C.
Master of International Development Policy (STEM-designated) May 2026

- Capstone: Analysing the impact of conflict and funding cuts on humanitarian needs in Eastern DRC
- Relevant courseworks: Regression Methods for Development, Impact Evaluation, Experimental Design & Implementation, Environmental Policy, Statistical Methods, Adaptive Measurement with AI, Intermediate Microeconomics, Public Finance

Leiden University The Hague
BSc International Relations and Organisations June 2024

- Thesis: "Towards Democracy: Why did the 1980 Gwangju Uprising Emerge?"; minor in Intelligence Studies (30 ECTS)
- Relevant coursework: Statistics I & II, Economics for Political Scientists, International Political Economy, Rational Choice Theory, Research Methods in Political Science

WORK EXPERIENCE

Oye Kenya Kenya, Nairobi
Research Assistant May 2025 - Sep 2025

- Supported a three-arm randomized controlled trial of demand-side barriers to electric two-wheeler adoption among about 1,000 motorcycle taxi drivers in Kenya, run with a Nairobi fintech partner
- Analyzed the partner's administrative loan records in Stata and R, covering customer borrowing, repayment, and company revenue
- Screened collected GPS data for geographically implausible records, flagging roughly 2% and documenting an auditable exclusion protocol

The World Bank Washington, D.C.
Short-Term Temporary, Business Ready (B-READY) Sep - Dec 2025; Apr - May 2026

- Assisted the senior analyst in administering the Business Ready (B-READY) contributor database and management function using Python and Excel
- Sourced and verified 30+ expert profiles per country for a stakeholder CRM using an internal LLM knowledge-retrieval assistant, and reported on its response accuracy
- Conducted sustainable infrastructure and green development desk research across APAC economies (Building Green project)

Leiden University The Hague
Research Assistant Dec 2023 - May 2024

- Conducted qualitative and archival research on Korean DMZ geopolitics, synthesizing primary and secondary sources to support a faculty-led academic publication
- Translated and analyzed Korean-language primary sources, bridging linguistic gaps to enable rigorous qualitative analysis for an English-language research output

PROJECT EXPERIENCE

IMPACT Initiatives Washington, D.C.
Graduate Capstone Consultant Sep 2025 - May 2026

- Cleaned and harmonized 8,200+ household surveys across three eastern DRC provinces, running consistency checks on 200+ indicators in Stata and reconciling administrative unit names across MSNA, ACLED, and shapefile data
- Built a health zone-year panel (46 health zones, 2024-2025) using a spatial join of geolocated conflict events, applied survey weights for changing sampling frames, and constructed a standardized composite need index from five sector indicators
- Estimated pooled OLS, first-difference, and fixed-effects models with clustered standard errors, finding household shocks the most robust predictor of need
- Authored the data, methodology, and results sections of the 38-page capstone report, documenting index construction, identification limits, and robustness checks

LEADERSHIP EXPERIENCE

East Asian Policy Association, Georgetown University Washington, D.C.
Head of Research Sep 2025 - May 2026

- Led a research team producing a bi-weekly policy newsletter to 400+ faculty and students, overseeing topic selection, research assignments, and editorial quality
- Researched political and economic developments across multiple East Asian economies, synthesizing cross-country policy trends into accessible analysis
- Convened policy roundtables and panel events with senior policy experts, coordinating speaker outreach and logistics

SKILLS

Language: Korean (Native), English (Fluent), French (Beginner)
Technical: Stata, R, Python, SQL, SPSS, SurveyCTO, Git & GitHub, Tableau, MS Office (Word, Excel, PowerPoint, Teams, Outlook)
Quantitative Methods: OLS, Fixed Effects, First-Difference, Difference-in-Differences, RCTs, Panel & Cross-Sectional Analysis
AI Tools: AI-assisted coding, Claude Code, Codex, Microsoft Copilot (Excel, PowerPoint), Prompt Engineering, Workflow Automation
